

Practical No: 01

Aim : Android Activity Lifecycle

MainActivity.java -

```
package com.example.anew;
import androidx.appcompat.app.AppCompatActivity;
import android.os.Bundle;
import android.util.Log;
import android.widget.TextView;

public class MainActivity extends AppCompatActivity {
    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);
        Log.d("Lifecycle", "Chaitanya (Roll No: 96)");
        Log.d("Lifecycle", "onCreate called");
    }
    @Override
    protected void onStart() {
        super.onStart();
        Log.d("Lifecycle", "onStart called");
    }
    @Override
    protected void onResume() {
        super.onResume();
        Log.d("Lifecycle", "onResume called");
    }
    @Override
    protected void onPause() {
        super.onPause();
        Log.d("Lifecycle", "onPause called");
    }
    @Override
    protected void onStop() {
        super.onStop();
        Log.d("Lifecycle", "onStop called");
    }
    @Override
    protected void onRestart() {
        super.onRestart();
        Log.d("Lifecycle", "onRestart called");
    }
    @Override
    protected void onDestroy() {
        super.onDestroy();
        Log.d("Lifecycle", "onDestroy called");
    }
}
```

Output -

The screenshot shows the Android Logcat interface. The top bar includes tabs for 'Logcat' and '+'. The dropdown menu shows 'Pixel 3a API 35 extension level 13 x86_64 (emulator-5554) Android'. A filter bar has 'package:mine' selected. The log output area displays the following text:

```
: SERVICE NOT FOUND
2025-07-23 17:23:04.126 7616-7616 com.example.anew com.example.anew
